Community coordinator:

Work with designers to animate the space for the weekend event and public art including contemporary light design.

Project coordinators:

New media: Coordinate new work re: film and projection opportunities. Engage professional artist to work with youth.

Performance: Engage poets, songwriters, musicians, dance and vocal professionals. Coordinate new works

Visual arts: Sculpture, painting, seating and exhibition spaces of public art. Engage professional artists to

POST FORUM FEEDBACK

Hi Di,

As promised, here is our feedback from last night's meeting.

The feeling at our table was that the venue and the age group had already been determined.

However, here are some ideas for the above that we came up with that may attract the demographic that you are aiming at:

A Free Wi-Fi Zone

A Maze like path structure with inset activities.

A modern adaptation of mini golf with some type of video game theme.

The problems we can see with forming a Youth Chill Out Zone at the swimming pool are:

Access- Times of opening, very restrictive.

Fee- How do they access the zone for free and not be able to swim?

Space- A space of 50m x approximately 30m is not really large enough for bands etc. Or for the two day festival with activities.
