About the Artist

Syagini Ratna Wulan is an artist from Indonesia who uses geometric shapes and subtle gradients of colour to make abstract paintings and installations. She is interested in how colour can evoke different feelings, and enjoys making art that people can participate in or transform.

Mandalas

Inspired by the tradition of mandala-making, Syagini has created five different mandala designs that you can transform using coloured pencils. Mandalas are circular artworks that are used in some spiritual and religious practices to create a sense of wellness. Syagini hopes her activity will be a calming and meditative experience.

Your turn!

Using coloured pencils, add colour and pattern to your favourite mandala

Warning: These templates include patterned effects which may be a trigger for people with photosensitive epilepsy.
